MES Pu College,Malleswaram
Intermediate in Science

May 2018 – Mar 2020
Percentage: 93.16

Technical Skills

Languages/Database: Java, C, C++, Python, Javascript, Html, Mongodb, Sql

Frameworks/Libraries: React.js, Node.js, Express.js, Tailwind css, Css

Projects

E-commerce Website | *Mongodb, Express.js, React.js, Node.js* | [Deploy](#) | [Github](#)

Jan 2022

- This website provides users with a seamless and secure shopping experience, allowing them to browse and purchase products using advanced filtering options.
- Developed a full-stack web application using Nodejs serving a REST API with Mongodb as the Backend.
- Integrated with Cloudinary to store Images of campground on cloud storage.

Online Pet Management | *Mongodb, Express.js, Jquery, Node.js* | [Github](#)

Feb 2023

- This website incorporates various features to enhance the user's shopping experience. It allows pet owners to browse through a wide range of products specifically tailored for their pets, including food, toys, accessories, and healthcare items.
- Developed using Fetch API and Jquery for frontend.
- Used JWT token to authenticate user.

Movie Recommendation System | *Pandas, Numpy* | [Github](#)

July 2023

- Content Based Recommender System recommends movies similar to the movie user likes and analyses the sentiments on the reviews given by the user for that movie.
- The details of the movies(title, genre, runtime, rating, poster, etc) are fetched using an API by TMDB.
- Used Naive bayes and Cosine Similarity algorithm.

Certifications

Node.js: The Complete Node.js Developer Course | [Udemy](#)

Express.js : Just Express with a bunch of node and http in detail | [Udemy](#)
